"Speech That Works" App  
is available for purchase  
through the Apple Store  
and Google Play Store.  
**\$39.99**

Professionals are able to input data for student goals, monitor progress, and generate a report from data collected. Speech That Works is a comprehensive articulation tool.

**What's Included:**

- Suprasegmental objectives activities for duration, loudness, and pitch
- Vowels from isolation, repetitions, alternations, and words
- Consonants from isolation, repetitions, alternations, words, phrases, sentences, nursery rhymes, and matching games
- Clusters (initial and final)

Recognition is given to the late Dr. Elizabeth Wilkes for her commitment to the development of the Cottage Acquisition Scales for Listening Language and Speech, including the CASLLS User's Manual, the CASLLS Companion, and Speech That Works. Dr. Wilkes was the pioneering foundation for our line of educational products used by professionals around the globe.

Sunshine Cottage School for Deaf Children admits students of any race, color, national and ethnic origin to all the rights, privileges, programs, and activities generally accorded or made available to students at the school. Sunshine Cottage does not discriminate on the basis of race, color, national and ethnic origin in the administration of its educational policies, admission policies, scholarships, loan programs, and athletic and other school administrated programs.

Sunshine Cottage is accredited by Cognia and is a TEA accredited non-public school.  
Sunshine Cottage is a 501 (c) (3) nonprofit educational organization.

# Sunshine Cottage

A Listening and Spoken Language School for Deaf Children

Sunshine Cottage School for Deaf Children offers a variety of comprehensive research-based, theory-driven educational products designed for use by professionals, students, and parents. Our products are primarily for use with children who are deaf or hard of hearing but are appropriate for monitoring, assessing, and teaching in areas where typical language, speech, and listening development are a priority.

There’s magic in the CASLLS...  
Cottage Acquisition Scales for Listening, Language, & Speech (CASLLS)

Eliminate separate forms for listening, language and speech objectives, and promote the use of an integrated approach. Easily inform parents about progress. Teach using a developmental model and authentic assessment. Reduce planning time for therapy and classroom instruction. Streamline long-term planning and IEP development. Promote continuity from pre-verbal to complex language skills.

Complete Set	\$240.00	Includes one package of each level and User’s Manual.
User’s Manual Only	\$ 30.00	
User’s Manual (pdf)	\$ 30.00	

What’s covered?

Listening, Language, Speech and Cognition included on the following forms:

- Pre-Verbal \$50.00**  
This level is designed for children with no words. It allows the professional to monitor the progress of preverbal behaviors.
  - Pre-Sentence \$50.00**  
This level is designed for children who have started speaking. It monitors the emergence of vocabulary and a full range of semantic intentions through 2-3 word combinations.
  - Simple Sentence \$50.00**  
This level is designed for children who are ready to develop complete simple sentences. It includes basic grammatical morphemes, the development of conversation, and the earliest examples of complex language.
- Complex Sentence \$50.00**  
For children ready to develop more sophisticated language abilities, this level samples a broad variety of discourse skills, increasingly difficult question forms, elaborated noun phrases, and subordination.
  - Sounds & Speech \$50.00**  
This is a companion instrument that may be used at the same time as one of the other scales to monitor the development of sound awareness, phonetic listening discriminations, phonetic and phonologic speech.
- Each level is packed in sets of 20 and are available in English and Spanish.**

Electronic CASLLS (eCASLLS)

The Electronic CASLLS (eCASLLS) contain the same structures as the paper CASLLS; however, the new format allows professionals to view and work with segments rather than the entire document. Just click on a CASLLS, determine the domain you want to view, and begin inputting data. Data recorded on the eCASLLS is stored and a CASLLS mastery level can be determined. Goals can be indicated and marked as they are achieved. Additionally, eCASLLS can be printed at any time and information can be shared with caregivers and other professionals. Visit our website for more information!

CASLLS Companion PDF \$30.00

The CASLLS Companion provides explanations of grammatical forms and suggested activities for language structures on the Simple and Complex Sentence Level of the Cottage Acquisition Scales for Listening, Language, and Speech (CASLLS).

- Explanations of grammatical terms
  - Sample sentences
- Therapy ideas
  - Suggested resources

CASLLS Goal Cards (all four levels) \$150.00

Many organizations have adopted the Cottage Acquisition Scales for Listening, Language, and Speech (CASLLS) for tracking student progress and recording their listening and language goals. Now you can display listening and language goals in your therapy room or classroom and make sure you are on target. These cards can be used in individual, small group, or during whole group instruction. CASLLS Goals Cards can be purchased as a complete set or individually, depending on language level needed for your students. CASLLS Goal Cards have been developed for each CASLLS structure for a total of 721 cards. Cards correlate with all language levels: Pre-Verbal, Pre-Sentence, Simple Sentence, and Complex Sentence.

Card dimensions: 11” x 4.25”

CASLLS Activity Cards \$49.00

The CASLLS Activity Cards are laminated activity ideas that will assist professionals with eliciting CASLLS structures, Pre-Verbal through Complex level. The Cards are a wonderful resource for Speech-Language Pathologists, Itinerants, Auditory-Verbal Therapists and Classroom Teachers to use with students developing listening, language, and speech.

Reading CASLLS \$60.00

The Reading CASLLS includes three instruments in one booklet, each covering a discrete developmental level in the domains of book handling/print concepts, alphabetic system/phonological awareness, vocabulary, fluency, and comprehension. Early Literacy is the first instrument and follows the development of early reading skills typically achieved by infants and toddlers from birth to 36 months. Pre-Reading is the second instrument and is designed for use with children with a developmental age of 36 – 60 months. Learning to Read is the third instrument and follows the development of reading skills as formal reading instruction begins in elementary school, from kindergarten through the end of third grade.

Set of 10 per package

Reading CASLLS User’s Manual (pdf) \$30.00

Guide to Listening and Spoken Language \$50.00

Empower your clients (parents/primary caregivers) in their educational journey concerning the impact of hearing loss on their family. This recently developed checklist provides a framework for encouraging and guiding parents/primary caregivers to understand their role in the development of listening, language, and speech for their child with hearing loss. With guidance from a professional skilled in auditory-verbal practices, parents/primary caregivers choose topics to learn about or select strategies to facilitate listening, language, and speech development.

Information in the following topics are included in this booklet:

- Get access to sound
- Learn to Listen
- Encourage Talking
- Transition: What fits your child’s needs?
- Helpful resources

Set of 10 includes English and Spanish Guides.

S.T.A.R.R. Parent Coaching Strategies for Listening and Spoken Language Booklet with Magnetic Stars \$30.00

Magnetic Stars (Set of 10) \$20.00

Booklet \$ 15.00

The S.T.A.R.R. is a tool to coach parents in effective listening and spoken language strategies. It is not enough for parents/ caregivers to “want” listening and spoken language; sometimes behavioral changes are necessary. S.T.A.R.R. can be used as a clear script to guide the way to that behavioral change. S.T.A.R.R. strategies can be used with any parent, in any language. The points on the S.T.A.R.R. may be introduced in isolation but all 5 skills are used collectively and collaboratively by parents throughout the waking hours of the child.

Available in English (S.T.A.R.R.) or Spanish (C.H.I.L.E.)

Two-sided handout of S.T.A.R.R./C.H.I.L.E. \$25.00

This handout lists the five strategies used when working with families in a 0-3 program. Strategies are in English on one side, and strategies in Spanish are on the other side.

Package of 50 forms

Reaching 20,000 Listening Hours with Hearing Technology \$25.00

The development of listening and spoken language for a child with hearing loss is dependent on at least 20,000 hours of interactional experiences by age 5. Reaching this goal requires a child to become a full-time user of their technology as quickly as possible. We developed this resource to help parents determine what full-time usage should look like at varying ages, the rationale for its importance, and practical tips on how to keep technology on.

Package of 50 forms. Available in English and Spanish.
